Thank you for your letter of 8th August, 2008, regarding the Independent Review of Public Service Pensions.

I think it is premature to make comment until recommendations come forward for endorsement at the conclusion of the Review.

For your information I am copying you correspondence between Dr. Christopher Clague and the Chief Minister on the subject. I think this gives an accurate indication of where we are up to and answers the concerns raised from a health worker's perspective.

With regard to issues within your own work area, I am sure you are working closely with your union to resolve matters of concern.

In conclusion, I hope the Review will provide sound proposals for the future to look after our valued workforce in a sustainable system.

Yours sincerely,

David Anderson, MHK
